

Conference Schedule

Wednesday 3 rd January 2018: Official Opening and Welcome				
Start	End	Program	Facilitators & Speakers	Venue
14:00	16:00	Registrations Open	Kathryn (Kasia) Biernacki Natalie De Bono Jennie Matthews	Mercy Foyer
14:30	16:00	Student Focused Research Event 4 x 15 min rotating small group sessions 1 x 30 min interactive whole group discussion	<i>Facilitators:</i> Dr Hunter Ball Professor Jason Hicks Professor Lia Kvavilashvili Professor Sarah Raskin	North Cafe
16:30	16:45	Welcome Acknowledgement to Country	Professor Peter Rendell Associate Professor Gill Terrett	Mercy Lecture Theatre (LT) (4.04)
16:45	17:10	Life Time Achievement Awards <i>Recipients: Gil Einstein & Mark McDaniel</i>	<i>Presenter:</i> Peter Rendell <i>Speakers:</i> Professor Gene Brewer Professor Melissa Guynn Professor Jason Hicks Professor Lia Kvavilashvili	Mercy LT (4.04)
17:15	18:00	Keynote Presentation: Developing Foresight <i>Chair: Peter Rendell</i>	Professor Thomas Suddendorf	Mercy LT (4.04)
18:00	19:30	Welcome Reception: Drinks & Canapes		Rooftop or North Cafe

Conference Schedule

Thursday 4 th January 2018: Day 1				
Start	End	Program	Facilitators & Speakers	Venue
8:45	9:00	Welcome, Housekeeping and Agenda	Gill Terrett	Mercy LT (4.04)
9:00	10:25	Paper Presentations - Session #1: <i>Chair: David Shum</i>		Mercy LT (4.04)
		Reminding prospective memory instructions in the delay interval does not improve event-based prospective memory: Implications for a standard laboratory paradigm.	Lia Kvavilashvili	
		Spatiotemporal offloading in memory for multiple intentions.	Timo Mäntylä	
		Commission errors – determined to do the wrong thing?	Philipp Schaper	
		Prospective memory decision control: The theory.	Andrew Heathcote	
		Prospective memory decision control: Experiments, analysis, and software.	Luke Strickland	
10:25	10:45	Morning Tea Break		Mercy Foyer
10:45	11:25	Oral Data Blitz Presentations - Session #1: <i>Chair: Gill Terrett</i>		Mercy LT (4.04)
		Cognitive offloading the elements of a prospective memory task.	Melissa Guynn	
		A computational theory of intentional action selection.	Franziska Oren	
		The effects of task importance and attention mode on intention activity of prospective memory.	Chenchen Zhou	
		Resist forgetting: Effects of aerobic and resistance exercise on prospective memory.	Emily LaFrance	
		Neural correlates of event-based prospective memory in adolescence and adulthood: An fMRI study.	Iroise Dumontheil	
		Prospective memory after stroke: Comparing self-report and psychometric test performance.	David Shum, <i>on behalf of Christy Hogan</i>	
		Cognitive efficiency and everyday cognitive failure in prospective memory.	Antonina Pereira	
		How do preschoolers remember to remember? Automatic versus strategic processes in event-based prospective memory.	Elżbieta Ślusarczyk	
		Development of children's use of external reminders for hard-to-remember intentions.	Jonathan Redshaw	

Conference Schedule

Thursday 4 th January 2018: Day 1 cont.				
Start	End	Program	Facilitators & Speakers	Venue
11:30	12:40	Paper Presentations - Session #2 <i>Chair: Shayne Loft</i>		Mercy LT (4.04)
		The importance of imagery perspective for successful future thinking in different domains and cultures.	Judith Ann Ellis	
		Effects of age on spontaneous past and future thinking in daily life.	Elizabeth Warden	
		Discriminating between the past and future: Evidence from multi-voxel pattern analysis in younger and older adults.	Nathan Rose	
		Memory reimagined: scene construction performance in the behavioural variant of frontotemporal dementia.	Nikki-Anne Wilson	
Commencing 12:40		Lunch Break with Poster Presentations		South Café Foyer
13:00	13:45	Lunchtime Poster Presentations <i>Chair: Shayne Loft</i>		<i>Poster Board Number:</i>
		Scene construction underlies episodic foresight deficits in children with autism spectrum disorder.	Serene Chua	1
		Plan-related functions of deliberate and spontaneous mind wandering in classroom.	Taisuke Morita	3
		The role of episodic future simulation in deciding to trust.	Holly O'Rourke	5
		When rehearsal fails: Paradoxical effect of reminders on event-based prospective memory.	Lia Kvavilashvili	7
		Prospective memory differences in young and older adults in focal and nonfocal tasks: are they related to differences in monitoring behavior?	Nicola Ballhausen	9
		Self-controlled encoding facilitates prospective remembering.	Hunter Ball	11
		From lab to life: A literature review on prospective memory functioning in everyday life.	Maximilian Haas	13
		Depression and sleep disturbance predict poorer time based prospective memory in community-dwelling older adults.	Erica Hodgson	15
		Prospective memory in older adults in a naturalistic setting: A novel and comprehensive test of late age effects on prospective memory task types.	Simon Haines	17
The influence of mood on prospective memory in young and older adults: The role of the task type.	Francesco Pupillo	19		

Conference Schedule

Thursday 4 th January 2018: Day 1 cont.				
Start	End	Program	Facilitators & Speakers	Venue
13:45	14:25	Lunchtime Posters of Oral Data Blitz Session #1 Presenters <i>Chair: Shayne Loft</i>		<i>Poster Board Number:</i>
		Cognitive offloading the elements of a prospective memory task.	Melissa Guynn	2
		A computational theory of Intentional action selection.	Franziska Oren	4
		The effects of task importance and attention mode on intention activity of prospective memory.	Chenchen Zhou	6
		Resist forgetting: effects of aerobic and resistance exercise on prospective memory.	Emily LaFrance	8
		Neural correlates of event-based prospective memory in adolescence and adulthood: An fMRI study.	Iroise Dumontheil	10
		Prospective memory after stroke: Comparing self-report and psychometric test performance.	David Shum, <i>on behalf of Christy Hogan</i>	12
		Cognitive efficiency and everyday cognitive failure in prospective memory.	Antonina Pereira	14
		How do preschoolers remember to remember? Automatic versus strategic processes in event-based prospective memory.	Elżbieta Ślusarczyk	16
		Development of children's use of external reminders for hard-to-remember intentions.	Jonathan Redshaw	18
14:35	16:00	Paper Presentations - Session #3 <i>Chair: Shayne Loft</i>		Mercy LT (4.04)
		fMRI as measured of efficacy of PM rehab with ABI.	Sarah Raskin	
		Can Prospective Memory Functioning be Supported in Amnesic Mild Cognitive Impairment? A Lifespan Approach to the Critical Role of Encoding.	Antonina Pereira	
		Prospective Memory and Quality of Life in Older Adults with Autism Spectrum Disorder.	Amanda Roestorf	
		The implementation intention effect on prospective memory performance in schizophrenia patients: A multinomial modelling approach.	Ya Wang	
		Are subjective prospective memory problems associated with medication forgetting among adults with diabetes? Results from the second Diabetes MILES-Australia (MILES-2) study.	Stephen Trawley	
16:00	16:15	Afternoon Tea Break		Mercy Foyer
16:15	17:00	Keynote Presentation: TBC <i>Chair: Peter Rendell</i>	Professor Karl Szpunar	Mercy LT (4.04)
17:00	18:15	Debate	<i>Facilitator: Paul Burgess</i>	Mercy LT (4.04)
18:15		Student Social Event, convene Mercy Foyer	Kathryn (Kasia) Biernacki	Fitzroy Local

Conference Schedule

Friday 5 th January 2018: Day 2				
Start	End	Program	Facilitators & Speakers	Venue
8:45	8:50	Agenda	Gill Terrett	Mercy LT (4.04)
8:50	10:15	Paper Presentations - Session #4: <i>Chair: David Shum</i>		Mercy LT (4.04)
		Exploring the neural correlates of social prospective memory in naturalistic situations using functional near infrared spectroscopy (fNIRS).	Paul Burgess	
		Prospective memory benefits from midday sleep and relaxation-hypnosis.	Mateja Böhm	
		Effects of stress and chronic cannabis use on episodic and habitual prospective memory.	Carrie Cuttler	
		Differential effects of nicotine on prospective memory, sustained attention and working memory.	Erika Fulton	
		Effects of smoking and smoking cues on prospective memory performance during a virtual week.	Gün Pakyürek	
10:15	10:30	Morning Tea Break		Mercy Foyer
10:30	12:00	Paper Presentations - Session #5: <i>Chair: Gill Terrett</i>		Mercy LT (4.04)
		A comparison of quantitative methods for assessing costs in event-based prospective memory tasks.	Gene Brewer	
		The impact of cortisol on prospective memory as a function of time of the day.	Nicola Ballhausen	
		An animal model of age-related cognitive decline in prospective memory: young rats "remember to remember" but old rats "forget to remember".	Jonathon Crystal	
		A genome-wide investigation of SNPs in prospective memory.	David Shum, <i>on behalf of Nesli Avgan</i>	
		On moving beyond the mean: An overview of alternative techniques to examine ongoing tasks costs in event-based prospective memory.	Hunter Ball	
Day Trip to the Valley Region				
12:15	13:30	Coach travel to Healesville Sanctuary	Off-campus	
13:30	16:30	Explore Healesville Sanctuary, <i>Spirit of the Sky Show: 14:30-15:15</i>		
16:45	17:00	Board coach, and travel to Oakridge Vineyard and Winery		
17:00	20:00	Wine tasting, pre-dinner drinks and cheese boards, 3-course dinner		
20:00	21:30	Board coach and travel back to ACU		

Conference Schedule

Saturday 6 th January 2018: Day 3				
Start	End	Program	Facilitators & Speakers	Venue
9:00	9:05	Agenda	Stephen Trawley	Mercy LT (4.04)
9:05	10:30	Paper Presentations - Session #6 <i>Chair: Stephen Trawley</i>		Mercy LT (4.04)
		Functional brain connectivity predicts performance in prospective memory task in young and old adults.	Patrizia Bisiacchi	
		The influence of encoding in prospective remembering across the lifespan.	Alexandra Hering	
		Supporting older adults' adaptation to fast-changing context in prospective memory monitoring: Effects of implementation intentions and blocking.	Beatrice Kuhlmann	
		Eye movements reveal differences in prospective memory processes between younger and older children.	Josephine Hartwig	
		Offloading intentions into the external environment: metacognition, development, and ageing.	Sam Gilbert	
10:30	10:50	Morning Tea Break		Mercy Foyer
10:50	12:00	Paper Presentations - Session #7 <i>Chair: Stephen Trawley</i>		Mercy LT (4.04)
		With (or without) a little help from my friends: the effects of collaboration and punishment on prospective memory performance.	Anna-Lisa Cohen	
		Collaboration in prospective memory: Cost, benefits, and helpful processes for successful outcomes.	Catherine Browning	
		Motivational effects in prospective memory: Examining how implicit goals and explicit concrete goals affect intention performance and activation.	Suzanna Penningroth	
		To smile or not to smile? Facial expression and age effects in prospective person memory.	Katharina Schnitzspahn	
12:05	12:45	Oral Data Blitz Presentations - Session #2: <i>Chair: Gill Terrett</i>		Mercy LT (4.04)
		Prospective memory in the real world: The ability to maintain intentions while engaged in immersive experiences.	Anna-Lisa Cohen	
		The effects of emotional episodic future thinking on intertemporal choice and risk-taking.	Adam Bulley	
		They forgot their "baby"! Incidental encoding causes students to forget their mobile phones.	Nathan Rose	
		The Effect of implementation intention on nonfocal event-based prospective memory performance in patients with schizophrenia.	Ya Wang, <i>on behalf of Lulu Liu</i>	

Conference Schedule

Saturday 6 th January 2018: Day 3 cont.				
Start	End	Program	Facilitators & Speakers	Venue
Cont.		Data Blitz Presentations - Session #2 cont.		Mercy LT (4.04)
		Young children's capacity to practise in preparation for a future event.	Melissa Brinums	
		A 10-item version of the Time Perspective Inventory.	Daniel Danner	
		Affective forecasting bias in preschool children.	Shalini Gautam	
		Associations of prospective memory with activities of daily living in older adults.	Rose van der Linden	
		Prospective-memory reminders – instructed versus spontaneous offloading.	Sam Gilbert, <i>on behalf of Annika Boldt</i>	
Commencing 12:45		Lunch Break with Poster Presentations		South Café Foyer
13:05	13:50	Lunchtime Poster Presentations <i>Chair: Shayne Loft</i>		<i>Poster Board Number:</i>
		Intensive training of prospective memory in older adults.	Emmanuelle Grob	20
		The roles of time perception and executive functions in prospective memory impairments in adults with developmental dyslexia.	Charles Menash	22
		Clinical utility of the brief assessment of prospective memory in a mixed group of patients with brain injury.	Joanne Oram	24
		A metacognitive skills training approach to enhance compensatory strategy training for prospective memory impairment following traumatic brain injury (TBI).	David Shum	26
		The role of executive functioning and retrospective memory in PM performance across adolescence.	Candice Bowman	28
		Event based prospective memory and inhibition in children with language disorder.	Lia Kvavilashvili, <i>on behalf of Nuala Ryder</i>	30
		Time-based prospective memory in pre-schoolers.	Elżbieta Ślusarczyk	32
		Benefits (and costs) of collaboration with a spouse for prospective memory performance in acquired brain injury (ABI).	Catherine Browning	34
		Influence of alcohol use on time-based prospective memory in college-aged Individuals.	Christy Chan	36
		Prospective memory on smoking and non-smoking young sample during Turkish virtual week: The roles of strategic monitoring, retrospective memory, and working memory.	Gün Pakyürek	38

Conference Schedule

Saturday 6 th January 2018: Day 3 cont.				
Start	End	Program	Facilitators & Speakers	Venue
13:50	14:30	Lunchtime Posters of Oral Data Blitz Session #2 Presenters <i>Chair: Shayne Loft</i>		<i>Poster Board Number:</i>
		Prospective memory in the real world: The ability to maintain intentions while engaged in immersive experiences.	Anna-Lisa Cohen	21
		The effects of emotional episodic future thinking on intertemporal choice and risk-taking.	Adam Bulley	23
		They forgot their "baby"! Incidental encoding causes students to forget their mobile phones.	Nathan Rose	25
		The Effect of implementation intention on nonfocal event-based prospective memory performance in patients with schizophrenia.	Ya Wang, <i>on behalf of Lulu Liu</i>	27
		Young children's capacity to practise in preparation for a future event.	Melissa Brinums	29
		A 10-item version of the time perspective inventory.	Daniel Danner	31
		Affective forecasting bias in preschool children.	Shalini Gautam	33
		Associations of prospective memory with activities of daily living in older adults.	Rose van der Linden	35
		Prospective-memory reminders – instructed versus spontaneous offloading.	Sam Gilbert, <i>on behalf of Annika Boldt</i>	37
14:45	16:15	Paper Presentations - Session #8 <i>Chair: Shayne Loft</i>		Mercy LT (4.04)
		Complexity of prospective memory response conditions influences commission errors.	Jason Hicks	
		Improving prospective memory with contextual cueing in a lexical decision task.	Vanessa Bowden	
		Modelling prospective memory and decision-making in simulated air-traffic control.	Russell Boag	
		The effects of interruptions and retention interval on prospective memory in simulated air traffic control.	Michael David Wilson	
		Metacognitive awareness and prospective memory: Understanding the cue-focality effect.	Jan Rummel	
16:15	17:15	Scholarship Awards, Debate Vote and Closing Reception with Light Refreshments <i>Recipients: Mateja Böhm, Adam Bulley, Emily LaFrance, Elżbieta Ślusarczyk, Rose van der Linden</i>	<i>Presenter: Peter Rendell</i>	Rooftop or North Cafe
